

For safety, print out this FIRST AID CARD and keep it during your activity.

SUGINO MACHINE LIMITED

Fold vertically

Address : 2880 Kuriyama, Namerikawa City, Toyama Prefecture, 936-8577, Japan  
TEL : +81-76-477-2555 Website : www.sugino.com/wj-safety-e SUGINO MACHINE LIMITED

**in the case of Water Jet accident.**  
**Please check operated pressure and used liquid**

INJURED CASE	More than 20MPa (2900PSI) Water Jet penetrates through skin and muscle	More than 100MPa (14500PSI) Water Jet penetrates through bones
--------------	---	---

In the case that water jet enters into the body, foreign substances diffuse with water. As a result, it may be possible to get specific injuries like necrosing cells widely and causing infections carried by the liquid in the body.

**WATER JET IMPACT TO HUMAN BODY**

**FIRST AID CARD**

As an emergency action in the case of injury due to water jet, see a surgeon on duty immediately.

Take the following emergency actions until medical treatment is available.

- 1 Raise up injured part of body.
- 2 Put a bandage on a wound, or cover it with tissue/kleenex, etc.
- 3 Press right above a wound in the case of bleeding copiously.
- 4 Pay attention to the whole body condition of injured person other than wounds.
- 5 Cover an injured part with clean cloth and plastic bag, and cool the part.

Water jet operator to keep this card all the time.  
Show this card to a doctor in the case of injury.

**For doctors, please refer to the information shown on the other side.**
